HIGH GRADE & RAPIDLY EXPANDING GOLD PRODUCER

TSX-V: KNT
OTCQX: KNTNF
GERMANY: 92K

K92 Mining owns the Kainantu Gold Mine located in the Eastern Highlands province of Papua New Guinea. The Kainantu Gold Mine is a high-grade, low cost underground mine within a ~725 km² land package in a region known for Tier 1 deposits. K92 is doubling throughput to 400,000 tonnes/year, which would increase annual production to +120 koz/year. Economic studies and drilling to support potential further expansions are underway.

WHY INVEST?

Rapid Production Growth.

Stage 2 expansion advanced and underway. Stage 3 Expansion PEA (2Q20)

~725km² land package in 'Elephant Country.'

Large number of high priority vein and porphyry targets identified

Significant Resource Growth.

~60% growth from YE17 to YE18 with further upside following drilling

Experienced Team with a Proven Track Record.

International expertise in mining, exploration and finance

High Grade, Low Cost Mine.

4th highest grade gold mine globally in the last 12 months (21 g/t)⁽¹⁾. AISC (2019): \$680/oz

Socially Responsible Mining.

Low-footprint underground mine; +95% of PNG national workforce. Strong focus on environment and community

AUEQ PRODUCTION OUTLOOK

RESOURCE GROWTH (AUEQ)

(1) Courtesy of Eight Capital Corp. Last 12-month avg head grade calculated based on sumproduct of head grade & gold production (from 4Q18-3Q19). If data not available, then four quarter arithmetic average.

(2) Year End 2019 Exploration Target is outlined as a potential volume of between 12 million and 13.5 million tonnes at a grade of between 8.5 g/t and 10.5 g/t gold & 1.25% and 1.35% copper, inclusive of reported Measured, Indicated and Inferred Mineral Resources at Kora, Kora North and Eutomi. Insufficient exploration work has been conducted to date to define a mineral resource of this magnitude and it is uncertain if further exploration will result in the delineation of additional mineral resources. The exploration target is conceptual in nature and is based on the assessment of surface and underground drilling data collected by the Company as well as historical and archived geological and mining data at Kainantu.

POTENTIAL CATALYSTS

- » Blue Lake Drilling (on-going)
- » Kora and Kora North Drilling (on-going)
- » Stage 3 Expansion PEA (Q2 2020)
- » Updated Resource (H1 2020)
- » Expansion at 400,000 tpa Run-Rate (Q4 2020)
- » Production Execution and Cash Flow Generation (on-going)

- ◆ Exploration & Development
- ✕ Past & Current Producer
- 💧 Hydropower Generation
- Principal Road
- ✈ Regional Airport
- 🚢 Port Facility

0 100 200 300 km

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION

Certain statements, beliefs and opinions in this presentation, including any information relating to K92's future financial or operating performance contained in graphs, tables and charts are "forward looking" under applicable Canadian legislation, which reflect the Company's current expectations and projections about future events. Forward-looking statements are generally identified by the use of forward-looking terminology such as "plans", "expects", "is expected", "budget", "scheduled", "targeted", "estimates", "forecasts", "intends", "anticipates", "projects", "potential", "believes" or variations of such words and phrases or statements that certain actions, events or results "may", "could", "would", "should", "might" or "will be taken",

"occur" or "be achieved" or the negative connotation of such terms.

Forward-looking statements are based on estimates and assumptions as of the date of this presentation regarding K92's future financial or operating performance that, while considered reasonable, are subject to known and unknown risks, uncertainties, and other factors which may cause the actual results and future events to differ materially from those expressed or implied and which are beyond the Company's ability to control or predict. Forward-looking statements contained in this Presentation regarding past trends or activities should not be taken as a representation that such trends or activities will continue in the future and are not guarantees of future performance. All statements regarding: the realization of the PEA for the Kainantu Gold Mine; the generation of further drilling results; expectations of future cash flows; expectations of future production results; expected success of the proposed plant expansion; potential expansion of resources are forward-looking and may or may not occur. Information contained herein is based on certain factors and assumptions regarding: there being no

significant disruptions affecting the Company's operations; political and legal developments in Papua New Guinea being consistent with the Company's current expectations; the accuracy of K92's mineral reserve and mineral resource estimates; exchange rates between the Canadian dollar and U.S. dollar, and the Papua New Guinea Kina, being consistent with current levels; prices for key supplies being consistent with current levels; equipment, labour and materials costs increasing on a basis consistent with K92's expectations; all required permits, licenses and authorizations being obtained from the relevant governments and other relevant stakeholders within the expected timelines and the absence of material negative comments during the applicable regulatory processes; the market price of the Company's securities; metal price; taxation; the estimation, timing and amount of future exploration and development; capital and operating costs; the availability of financing; the receipt of regulatory approvals; environmental risks; title disputes; failure of plant, equipment or processes to operate as anticipated; accidents; labour disputes; claims and limitations on insurance coverage and other risks of the

mining industry. In addition, there are risks and hazards associated with the business of mineral exploration, development and mining, including environmental events and hazards, industrial accidents, unusual or unexpected formations, pressures, cave-ins, and flooding and gold bullion losses, and the risk of inadequate insurance or inability to obtain insurance to cover these risks. Risks and certain other material assumptions regarding such forward-looking statements are discussed herein, K92's annual management's discussion and analysis and Technical Reports filed on SEDAR at www.sedar.com.

Accordingly, all of the forward-looking statements contained herein are qualified by these cautionary statements. K92 expressly disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, events or otherwise, except in accordance with applicable securities laws. No person should place undue reliance on forward-looking statements, which speak only as of the date of this presentation.
